PRODUCT CATEGORY	SHEET CONSTRUCTION	BENEFITS	GAUGES	COLORS	SHEET SIZES
Insite®Reveal®	• Extruded polystyrene foamboard with clay coated bright white or black liners	• Part of ColorOne™ system • Proprietary Reveal® foam center • Smooth clay coated liners • Superior cut ability	• 1/8" to 1"	• White • Black	• 24"x36" to 60"x192"
Insite®Reveal® Acid Free	• Extruded polystyrene foamboard with acid-free paper facers	• Proprietary Reveal® foam center • Preservation board • Double-sided protection	• 3/16"	• White	• 24"x36" to 48"x96"
Insite®Reveal® Canvas	• Extruded polystyrene foamboard with bright white textured 1/S or 2/S facers	• Part of ColorOne™ system • Proprietary Reveal® foam center • Canvas texturized 1 or 2/S facers	• 3/16"	• White	• 24"x36" to 60"x120"
Insite®Reveal® Heat Activated	• Extruded polystyrene foamboard with clay coated liners, one of which is coated with pressure-sensitive adhesive	• Smooth adhesive coating • Proprietary Reveal® foam center • Used in Mechanical, Vacuum, Heated roller laminator	• 1/8" • 3/16"	• White • Black	• 24"x36" to 48"x96"
Insite®Reveal® Self Adhesive	• Extruded polystyrene foamboard with clay coated liners, one of which is coated with heat-activated adhesive	• Smooth adhesive coating • Proprietary Reveal® foam center • Available in Low-Tack & High-Tack	• 3/16"	• White • Black	• 24"x36" to 48"x96"
LitePrint™ FR	• Flame resistant expanded polystyrene foamboard with flame resistant paper facers	• Only FR foamboard in the graphics industry certified by CA State Fire Marshall	• 3/16"	• White	• 48"x96"
MountCor®	• Low-temp, heat-activated foamboard with air release technology & patented pH neutral permanent adhesive	• Lowest activation temperature • Air-release technology • Patented permanent adhesive • No adhesive transfer to roller laminator	• 3/16"	• White • Black	• 24"x36" to 48"x96"
MountCor® Canvas	• Low-temp permanent heat-activated foamboard designed with a unique patented adhesive technology	• Only board with permanent adhesion to real canvas • Lowest activation temperature • Air-release technology	• 3/16"	• White	• 24"x36" to 48"x96"
EAGLECELL™	• All-paper honeycomb graphic board with double-thick bright white or black clay coated liners	• Part of ColorOne™ system • 100% recyclable core & facers • Superior structural strength	• 1/4", 1/2" • 3/4" to 2"	• White/White/White • White/Kraft/White	• 48"x96" to 60"x192" • Black Coming Soon!
Ryno Board®	• Extruded high density polystyrene foamboard with double-thick clay coated bright white or black facers	• Part of ColorOne™ system • High density foam center • Outstanding compressive strength	• 3/16" to 1/2"	• White • Black	• 24"x36" to 60"x120"
INFINITY®	• High density extruded polystyrene foamboard with NEW ColorOne™ white pre-match styrene liners	• Part of ColorOne™ system • Cold-bending capabilities • Litho-grade styrene cap sheets • High density foam center	• 3mm • 3/16" to 1"	• White • Black	• 16"x20" to 60"x192"
Gilco® Styrene	• Digital-grade styrene sheets with NEW ColorOne™ pre-matched white	• Sheeted digital-grade styrene	• .015 to .080	• White	• 48"x96" to 60"x120"
