The Gilman Brothers Company proudly announces the nomination of their MountCor Canvas, INFINITY, and Ryno Board products in Wide-Format Imaging's 2015 Reader's Choice Top Products Awards. The products were nominated by vendors by the end of 2014. From January 12, 2015 through February 13, 2015, readers and subscribers of Wide-Format Imaging (online and in print) and MyPRINTResource have the opportunity to vote for the products that have caused the most excitement in the industry and have been a valuable asset to wide-format print service provider's businesses over the 15 months.

From wide-format flatbed printers and wide-format media, to laminating equipment to inks, RIP software and scanners, to substrates and media, Wide-Format Imaging's Readers' Choice Top Products Awards will recognize the products that are doing the most for a PSP's bottom line. Since winners are selected based on popular vote, Gilman Brothers encourages our users by visiting the WFI ballot site at <https://2015wfitopproducts.questionpro.com>. Voting is only eligible by end users and consumers so any votes received from manufacturers, distributors, and suppliers will be removed from the final tally, making this a pure Reader's Choice Award. Winners will be announced at the ISA show in Las Vegas, and featured in the April issue of Wide-Format Imaging magazine.
