

The Gilman Brothers Company

PRODUCT MASTER

PRODUCT CATEGORY	SHEET CONSTRUCTION	BENEFITS	GAUGES	COLORS	SHEET SIZES
Resilient®	A velvety soft, closed cell foam board that recovers immediately after compression.	- Smooth surface for mounting and printing - Velvet black core – requires no edge treatment 27% lighter weight - Spring-back technology - Dent resistant corners - Cuts with most commercial cutting equipment.	1/2", 3/4", 1"	Black	50" x 87"
INFINITY®	High-density, extruded polystyrene foamboard with styrene facers	- UV Resistant - Cold-bending capabilities - Litho-grade styrene face sheets - High-density foam center		White White Black	16"x20" to 48"x192" 16"x20" to 60"x192"
EAGLECELL®	All-paper honeycomb graphics board with double-thick, bright white, clay-coated facers	100% recyclable core & facers - Superior structural strength	1/2" to 4"	Kraft White	48"x96" to 60"x120"
InSite® Reveal®	Extruded polystyrene foamboard with clay-coated, bright white or black, uncoated facers	- Proprietary Reveal® foam center - Smooth clay-coated liners - Superior cutability	1/8" to 1"	White Black	24"x36" to 60"x192"
InSite® Reveal® Acid Free	Extruded polystyrene foamboard with acid-free paper facers	- Proprietary Reveal® foam center - Acid-free paper facers - Double-sided protection	3/16"	White	24"x36" to 48"x96"
InSite® Reveal® Canvas	Extruded polystyrene foamboard with bright white, textured 1/S or 2/S facers	- Proprietary Reveal® foam center - Canvas texturized 1 or 2/S facers	3/16"	White	24"x36" to 60"x120"
InSite® Reveal® Heat Activated	Extruded polystyrene foamboard with clay-coated liners, one of which is coated with heat-activated adhesive	- Smooth adhesive coating - Proprietary Reveal® foam center - Used in Mechanical, Vacuum, Heated roller laminator	1/8" 3/16"	White Black	24"x36" to 48"x96"
InSite® Reveal® Self Adhesive	Extruded polystyrene foamboard with clay-coated liners, one of which is coated with pressure-sensitive adhesive	- Smooth adhesive coating - Proprietary Reveal® foam center - Available in Low-Tack & High-Tack	3/16"	White Black	24"x36" to 48"x96"
LitePrint™ FR	Flame retardant expanded polystyrene foamboard with flame resistant paper facers	- FR certified by CA State Fire Marshall - UL classified core	3/16"	White	48"x96"
MountCor®	Extruded polystyrene foamboard with specially formulated, low-temp, pH neutral, permanent adhesive and air release technology	- Lowest activation temperature 130°F (54°C) - Acid Free, pH neutral - Air-release technology - Patented permanent adhesive - No adhesive transfer to roller laminator	3/16"	White Black	24"x36" to 48"x96"
MountCor® Canvas	Extruded polystyrene foamboard with specially formulated, low-temp, pH neutral, permanent adhesive and air release technology	- Permanent adhesion to real canvas - Lowest activation temperature 130°F (54°C) - Acid Free, pH neutral - Air-release technology - Patented permanent adhesive - No adhesive transfer to roller laminator	3/16"	White	24"x36" to 48"x96"
Ryno Board®	Extruded high-density polystyrene foamboard with double-thick clay coated, bright white	- High-density foam center - Outstanding compressive strength	3/16" to 1/2"	White	24"x36" to 60"x120"

* UV Resistant package only applies to 50" and narrower sizes.

*Other Gauges and Custom Colors Available Upon Request
